

**REMARKS of Dr. B S Angade, Retrd Director, NSSO & Consultant after visiting MANT's activities & interacting with SHG's at Dhansiripar, Dimapur, Nagaland on 04.12.2016**

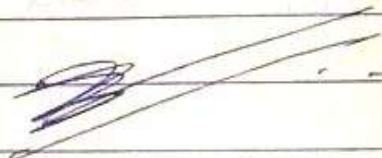

04-12-2016

Mant has done a commendable job in organising these groups. I found the group members very enthusiastic and keen to bring radical changes.

I am sure that these SHGs are going to play a pivotal role in changing the socio-culture scenario and giving a new dimension to mulberry sericulture in Nagaland.

They surely require lot of technical support from both CSB and DAs.

I was really lucky to interact with them. I thank them heartily, congratulate them for their efforts and wish them that their group members and families all the BEST.

  
Dr. B. S. Angade  
Director (Retd)  
& Consultant
